Throughout the 1930's, an unimaginable evil tore through Europe, as Hitler's Third Reich terrorized its way to domination. During these tumultuous times, a young Muslim woman living in Paris found her calling. Noor Inayat Khan grew up in a home that fostered faith and hope. Leading with her heart, she overcame her quiet nature and joined Winston Churchill's covert operation to give the Allies a new chance at victory. This is her story.

a 16:9 aspect ratio, or about 1.78:1.

Widescreen-formatted content is wider but shorter than content shown in a 16:9 format, and that produces black bars, or letter boxing, on the top and bottom of the content.

Widescreen content actually shows about 19% more on each side of the picture, and that extra content on each side is cropped out to reformat the film for the 16:9 presentation. The cropped content will vary scene by scene. The two video players below show essentially the same scene in widescreen and 16:9 formats, providing one example of how these formats present the same content.

Some viewers prefer the widescreen, letterboxed format where they see everything the filmmaker saw when shooting the film; others enjoy the 16:9 format and opt to lose some edge details in exchange for getting a picture that fills the available screen.
